WHISKY TASTING PLATFORM

CaskSense

Where tasting becomes reflection.

Complete Feature Overview · 44+ Features · 5 Categories

casksense.com

What is CaskSense?

A platform for structured whisky tastings. Blind flights, live ratings, a multi-act reveal show — and a personal taste profile that grows with every dram. All in one app.

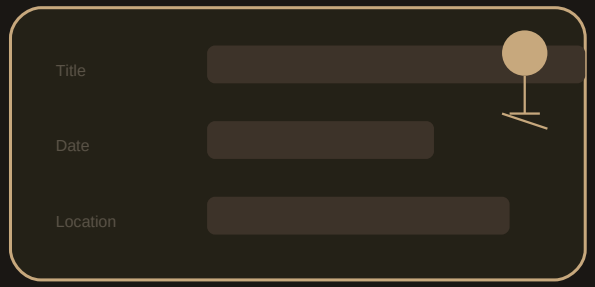
Every CaskSense tasting follows the same elegant flow.

A

The Tasting Engine

Everything you need to run a structured whisky tasting

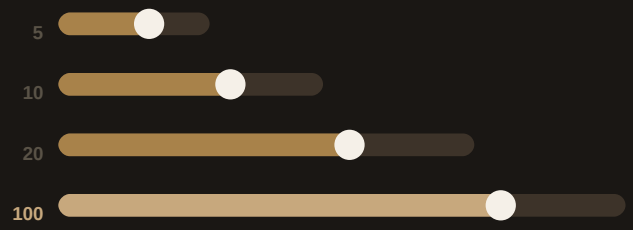
16 features



Tasting Setup

Create a tasting with title, date, location, and description. Configure everything before inviting anyone.

"Set the stage."



Rating Scales

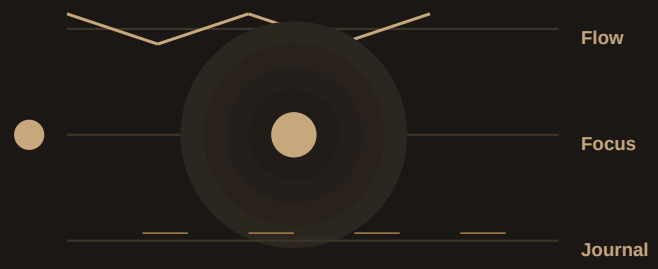
Choose from 5, 10, 20, or 100-point professional scales. Every group rates at the precision they prefer.

"Precision, your way."

Guided Mode

Everyone moves to the next dram together. The pace is synchronized in real time — no one falls behind.

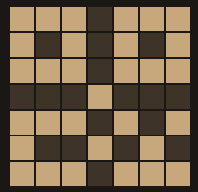
"One pace. One moment."



Session Modes

Three ways to experience a tasting: free Flow navigation, locked Focus on one dram, or guided Journal note-taking.

"Flow. Focus. Journal."

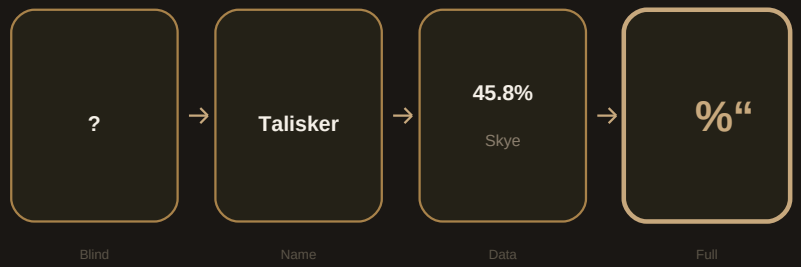


X 7 K 2 M 9

QR Code & Join Code

Guests join instantly via QR scan or 6-digit code. No app download. No account required.

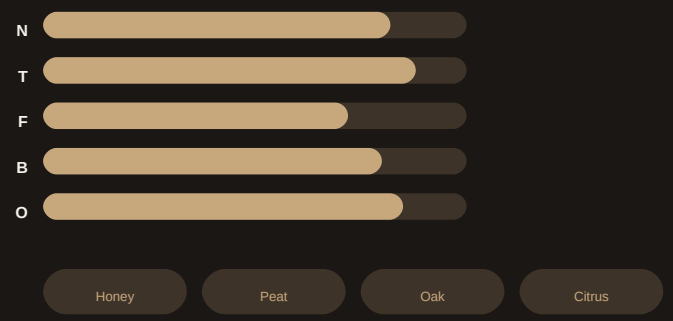
"Scan or type. Instantly in."



Blind Mode

Four-stage reveal: only the dram number, then the name, then metadata, then the full bottle. Bias eliminated.

"Mystery, unveiled in acts."



Live Rating System

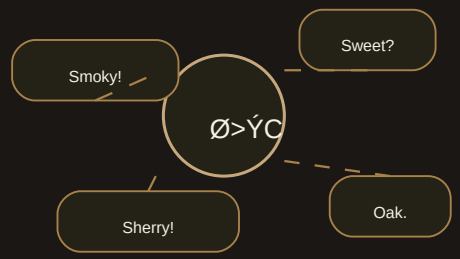
Rate nose, taste, finish, balance, and overall. Select flavor chips. Dictate voice notes. All captured live.

"Every sense, captured live."

Voice-to-Text Notes

Dictate your tasting impressions hands-free. Speech recognition transforms your words into written notes instantly.

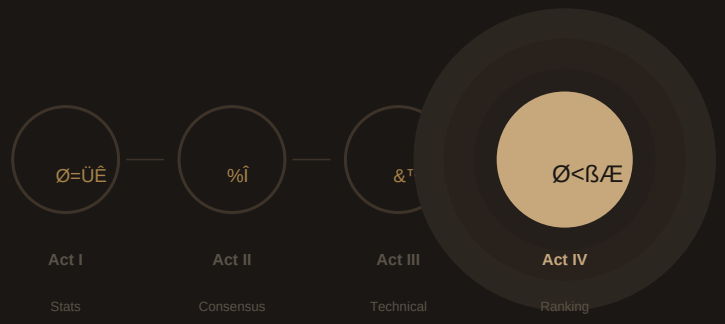
"Speak. Notes appear."



Discussion Panel

Live chat during the session. Share your impressions, debate flavors, and react to the reveal together.

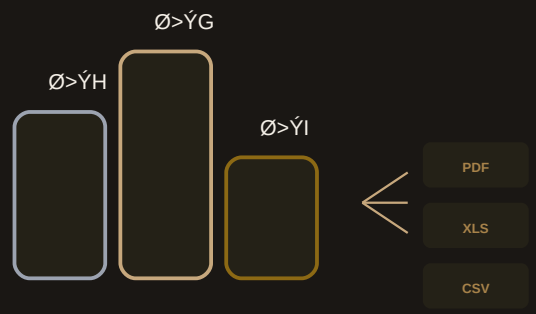
"Debate in real time."



Multi-Act Reveal Show

The reveal is a 4-act show: participation stats, group consensus, technical details, then the final ranking.

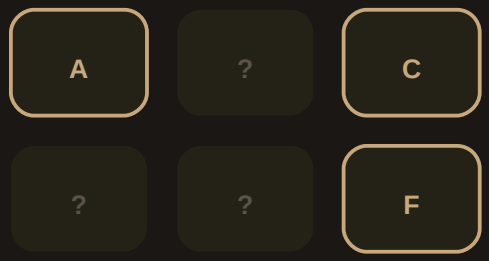
"A reveal like a finale."



Results & Export

Full results with gold, silver, and bronze medals. Export everything as PDF, Excel, or CSV.

"Celebrate, then share."



Flight Board

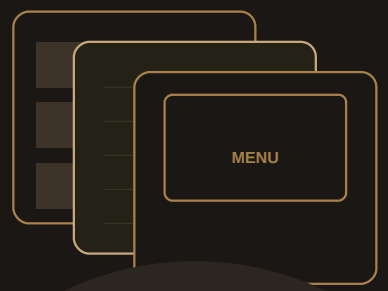
Visual overview of the entire lineup. See which drams are blind, which are revealed, and navigate with a tap.

"See the whole flight."

Ambient Sound

Toggle a fireplace soundscape for the perfect tasting atmosphere. Crackling fire, warmth, focus.

"Atmosphere you can hear."



Printable Templates

Generate tasting sheets, tasting mats, and AI-designed menu cards with custom cover images. Ready to print.

"Print the ritual."

Solo Dram Logger

Rate whiskies outside of group sessions. For quiet evenings with a single dram — every note captured.

"Your private dram diary."

Guest Mode

Standard Naked keeps a persisted identity. Ultra Naked is fully ephemeral — zero trace after the session.

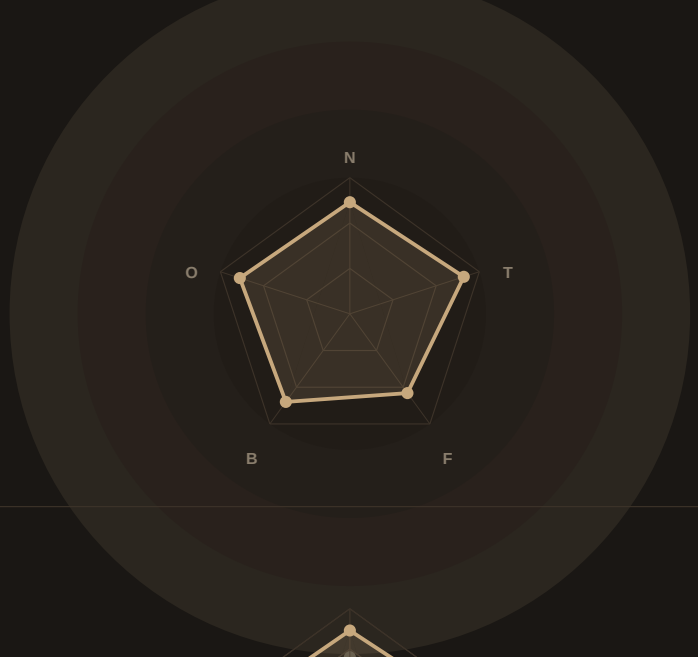
"Choose your visibility."

B

Personal Taste Analysis

10 features that learn your palate

10 features



Flavor Profile Radar

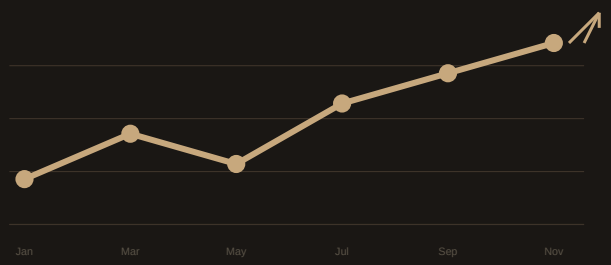
Interactive radar chart mapping your averages across nose, taste, finish, balance, and overall. Your palate, visualized.

"Shape your palate."

Profile Comparison

Overlay your radar against friends or the global community. See exactly where your palate diverges.

"You vs. everyone."



Taste Evolution

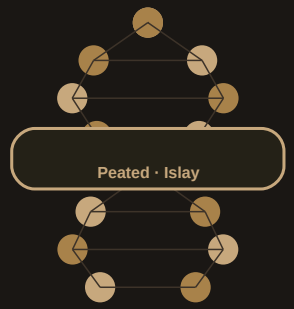
A trend line showing how your average ratings develop over months. See if your palate is rising, stable, or shifting.

"Taste evolves over time."

Consistency Score

Measures your scoring stability: standard deviation, range, spread. Are you a predictable or nuanced rater?

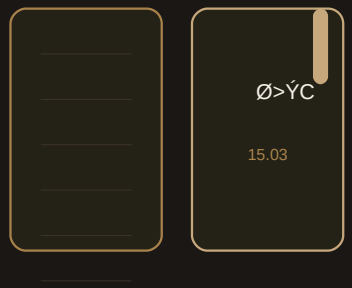
"How steady is your palate?"



Palate DNA

Identifies your style and sweet spot — your favorite region and cask combination, extracted from your highest scores.

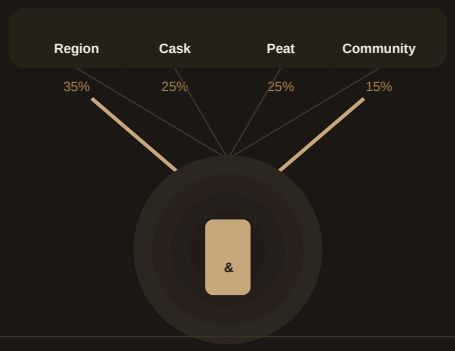
"Your flavor fingerprint."



Personal Whisky Journal

Every dram you taste — solo or in a group — is automatically logged with notes, scores, and metadata.

"Every dram remembered."



Whisky Recommendations

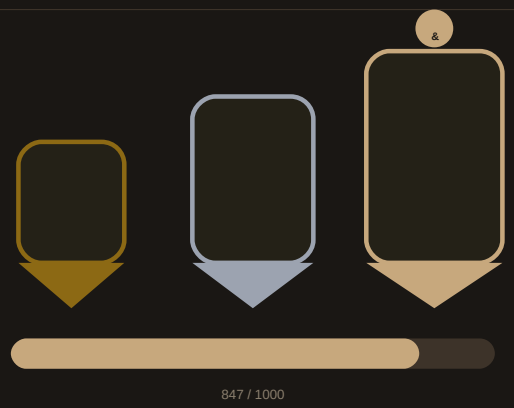
Factor-based engine weighing region, cask, peat level, and community ratings. Every suggestion has a reason.

"Recommendations with reasons."

Side-by-Side Comparison

Overlay up to 3 whiskies on a single radar chart. See where they differ — and which one matches your palate.

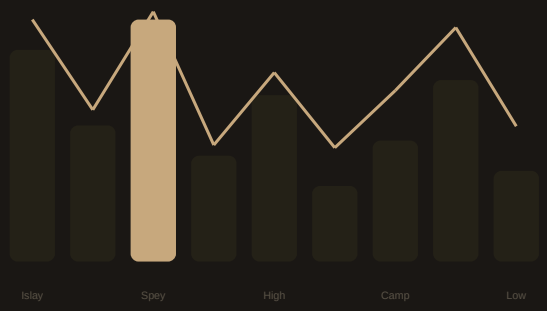
"Three drams, one glance."



Badges & Achievements

Gamified milestones: from 'First Sip' to 'Living Legend'. Every badge earned tells a story.

"Milestones worth pouring for."



Collection Analysis

Portfolio value, region distribution, age buckets, ABV spectrum, vintage timeline. Discover hidden gems in your cellar.

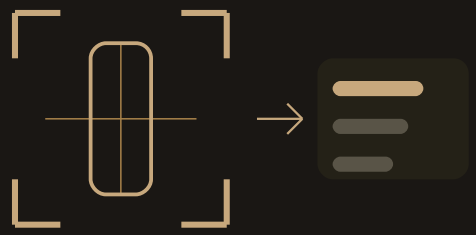
"Know your cellar's story."

C

AI-Powered Features

Artificial intelligence that makes your whisky experience smarter

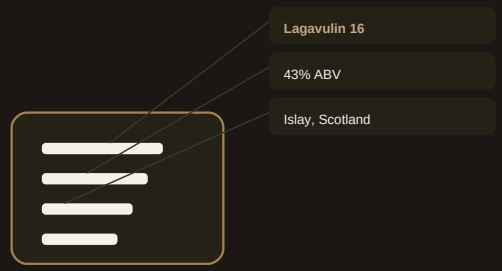
7 features



Bottle Recognition

Point your camera at any label. GPT-4o Vision identifies the whisky and fills in distillery, age, ABV, cask type.

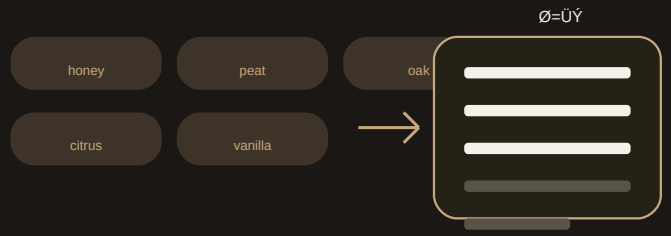
"Point. Identify. Done."



Label OCR

Reads text from bottle labels, menu cards, and even handwritten notes. Multi-bottle detection from shelf photos.

"Labels become data."



AI Tasting Notes

Select flavor keywords, and AI generates professional tasting notes. Multilingual: German and English.

"From hints to prose."

AI Enrichment

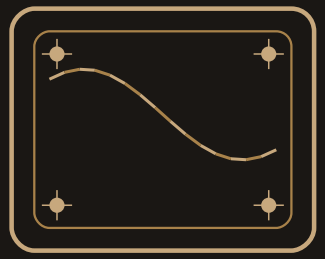
'Did you know?' facts, food pairing suggestions, and serving recommendations — generated automatically for every whisky.

"Facts and pairings, instantly."

Market Price Estimation

AI estimates the current market value of bottles based on distillery, age, and rarity. Track your collection's worth.

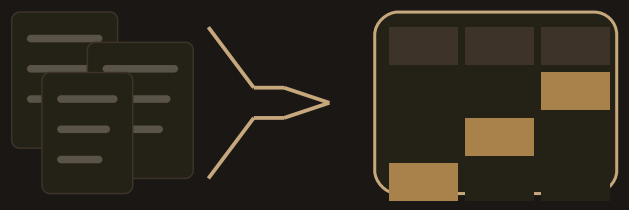
"Market value, estimated smartly."



AI Menu Card Cover

DALL-E generates context-aware cover images for tasting menus — based on region, season, cask types, and mood.

"Menus with imagination."



AI Tasting Import

Parse unstructured documents — PDFs, Excel files, photos — into structured tasting events with complete whisky data.

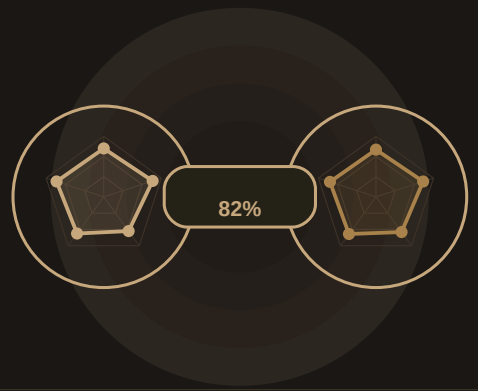
"Chaos in, structure out."

D

Community & Circle

Taste together. Compare. Discover who shares your palate.

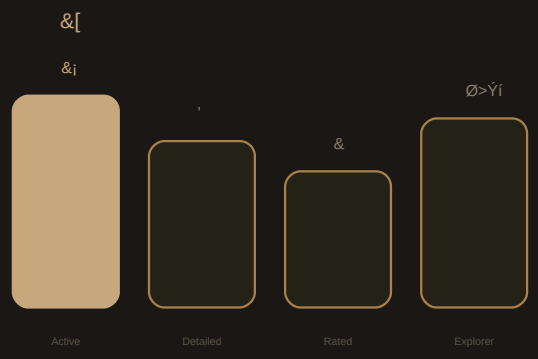
6 features



Taste Twins

Correlation engine matching your ratings with others. Twin (80%+), Similar (50%+), Related (30%+), or Different.

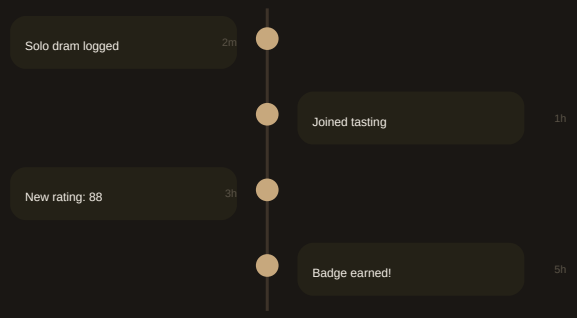
"Find your taste twin."



Leaderboards

Multi-category rankings: Most Active, Most Detailed, Highest Rated, and Explorer. Medals for the top three.

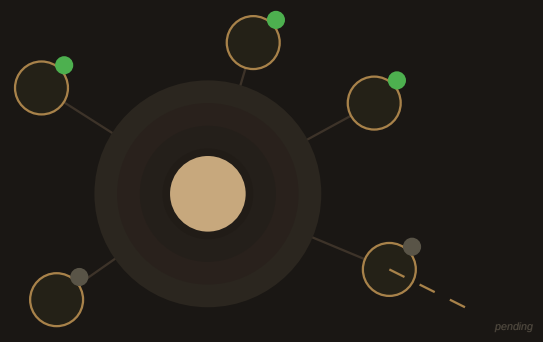
"Climb every leaderboard."



Activity Feed

Real-time stream of what friends are tasting — solo drams, group sessions, badges. With relative timestamps.

"See what friends sip."



Friend Management

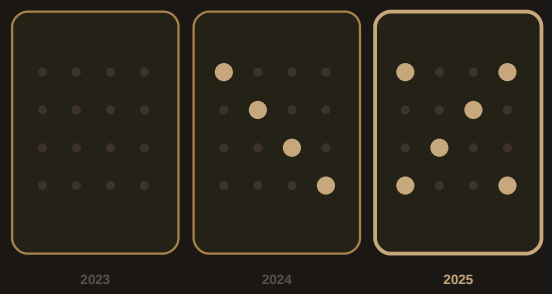
Search and add friends by name or email. See who's online, manage pending requests, and build your tasting circle.

"Build your tasting circle."

Community Rankings

Aggregated whisky scores across the community. Filter by region. Compare your score vs. the group average.

"The crowd's whisky verdict."



Historical Tastings

Searchable archive of past events. Cross-tasting analytics reveal top whiskies, region breakdowns, and trends.

"Past tastings, new insights."

E

Whisky Database & Collection

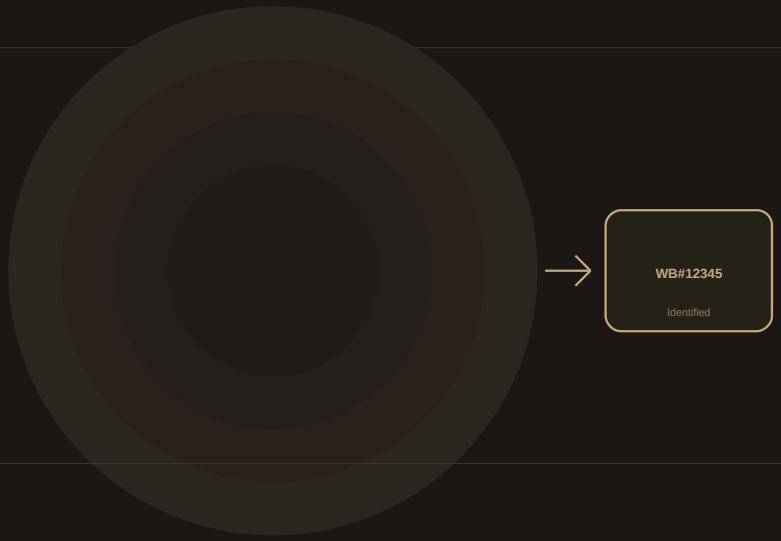
Manage your bottles, explore the world of whisky

5 features

Whiskybase Integration

Lookup by ID, CSV/Excel import, deep links to Whiskybase pages, and automatic image fetching. Fully connected.

"Connected to whisky knowledge."



Barcode Scanner

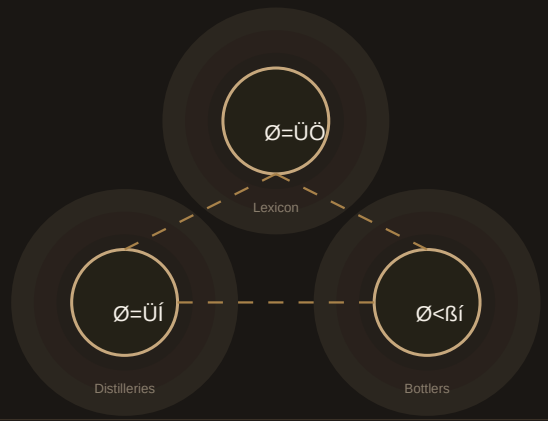
Camera-based barcode scanning for instant bottle lookup. Rate-limited and cached for reliable performance.

"Scan shelf to profile."

Collection Sync

Smart synchronization via CSV re-upload. Automatically detects new items, removed bottles, and changed ratings.

"Reupload. Auto-sync."



Knowledge Hub

Built-in whisky lexicon, interactive distillery map, bottler database, and a structured tasting guide. All in one place.

"Learn the whole world."

Wishlist

Track bottles you want to find. Integrated with your collection and journal for a complete whisky inventory.

"Track the next bottle."

Start your next tasting.

Open CaskSense and create your first session in under a minute.
